

## PV Conference & Expo: Boston Profile

Solar Power PV Conference & Expo-Boston (formerly known as PV America), returned to Boston for its third year in a row in 2016, drawing over 1,300 attendees from the surrounding Northeastern states and more than 50 exhibitors. The conference is the leading forum in the Northeast for the solar industry to network, demo new technologies, and learn about trends impacting the New England states.

“We are excited to be back in Boston,” said [Zuzana Piras, Marketing Communications Manager at SolarBOS](#). “Last year’s show was a big success for us. And since many of our customers are located on the East Coast, there is no better way to connect with them than through events such as the Solar Power PV Conference & Expo.”

### Industry Segments in Attendance Include:

Consulting Firm	Manufacturer- PV Cell/Module
Distributor	Manufacturer-Components/BOS
EPC Contractor	Project Developer
Installer Contractor	Utility

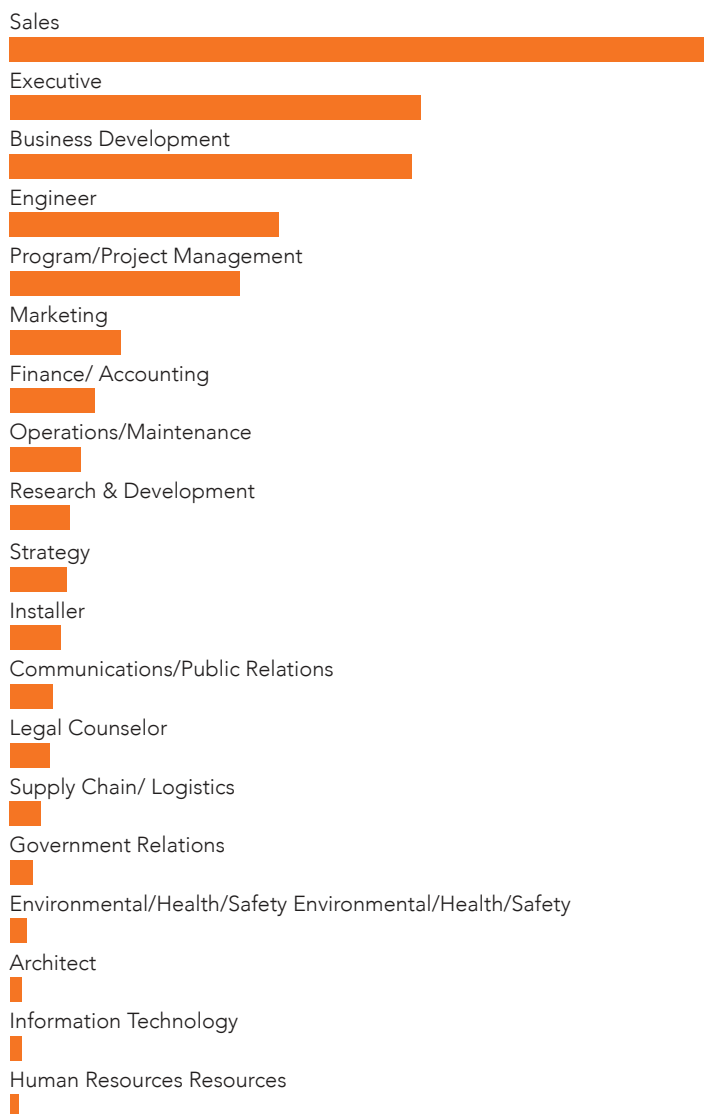

### Northeast in Focus

As the preeminent solar conference for the Northeastern United States, Solar Power PV Conference & Expo drew attendees primarily from the New England and Mid-Atlantic states. Massachusetts alone drew 31% of the audience.

### A Powerful Audience

Sales, business development, and executive level solar professionals account for over 50% of the attendees at Solar Power PV Conference & Expo. And they have buying power—over a third are decision makers for their company.
