

SOLAR+ STORAGE NEW YORK

2019 POST SHOW REPORT

Solar and Energy Storage New York returned for another successful year, connecting more than 300 energy professionals to the industry's leading experts. With two days of top-notch education and more than 20 exhibitors, the program offered attendees the latest insights on state policies, energy storage business cases, and other renewable energy trends and technologies impacting the state. With New York's ambitious 100% zero emissions by 2040 goal in mind, this event continues to be the leading event offering you the best resources to put your business in the forefront.
